Week 3: September 9, 2022

Our first round of NWEA/MAP Testing kicks off next week. **The NWEA MAP Test (Measures of Academic Progress)** is an adaptive achievement and growth test. It creates a personalized assessment experience by adapting to each student's learning level—precisely measuring progress and growth for each individual student. If your child correctly answers a MAP question, the computer assessment provides a harder question next. If they miss that same question, then an easier MAP question is asked. This provides essential information about what your child knows and is ready to learn.

The MAP Test is published by the Northwest Evaluation Association (NWEA) and is given via computer to children in grades K-12. Its structure is cross-grade, which provides measurement of students who perform on, above, and below grade level. If your child has been with our school district in the past, they will be very familiar with this assessment.

Once we have completed our Fall Testing, students and staff will use their results to set learning goals and targets for the school year. Data results will be shared with families once our testing window closes.

Thank you for helping to facilitate this process by making sure that your child comes to school on time and prepared for testing!

**Students MUST
have their
charged
CHROMEBOOK
in school with
them every day
& especially on
testing days.**
